Dear Gary, #

If my typing is worse than you remember, that is in part because I have to keep my left heel higher than my heart and because I'm more footbe after two houpitalizations for congestive heart and ronal failure. The locals did not expect no to survive the second one last summer and ambulanced me from thid dispital to "opkins, where ' was for more than three weeks. (The Higkins report to the local deefor un/sent no there listed mine not inconsequential problems for which they evaluated and treated me.) Sp. I lighter to my body, do what I can and continue to work but with less intensity and fever houre.

Drve Wrone told me you haves some connectuon with fliver Stone. Who undoubtedly does not live me. I'd heard separately that from had tried to connect with fill lepper for a "ing story but that pepper would jot. Pepper may if he gets to test fire the supposed right that supposedly fired the fatal shot be able to prove that it fight. Which would not be all that new because I didizizizizizizizizizidid that several lecades ago. Among other things. I was Ray's investigation. - conducted the investigation for the successful habeas corpus and firm the investigations for the two seeks of evidentiary bearings that did not succeed because the judge was not going to face what he'd have had to face if he acted on the basis of the sworm evidence before him.

So, I have all that work and more, much more. I such the hell out of the FBI, as you may recall. I got abput 80,000 pag as from about a decade of litigation. It includes a "solution" that from be used from FBI records and from the tage \hat{I} have of it when \hat{I} got that before I got those records from the FBI.

We part of proparing the case for those two weeks of hearings in federal district court in Memphis was to prove that Kay did not have effective assostance of counsel when his counsel was the most famous oriminal lawyer of the era, Percy Foreman. I decied that the only way to do that was to try a minimum of Wist was alleged against Ray to show what Foreman could have done with little effort when he in fact made none. So, I got the witnesses put on an exculpatory case and the judge just decided as to begin with he had decided to decide. But I do have the official transcripts and much more that I got from the FMI. It never investigated the case, nover claimed to, Fried to keep what it had from the

local prosecution(.!!!!) which got only the of it after completely to the DJ plus the FBI records that confirm what I'd doped out and this partscular Solution, Stone liking solutions and making them up. There are many phony claims to solution in the FBI'd records but just about all were by those who made them up seeking

a benefit in refurn. Like the phony Russell Byers who the House assassing went for after having his fiction fed it by the FBI. Byers was a proofessional felon. And he got Mas bonefit.

If ³tone can curb his predisposition to gild lilies there is a hell of a story that is not fiction and I am confident will not come out in court because Popper has h is out theories hi is playing and there is little chance that Ray can go to trial because he is not up to it if he survives. His brother tells me they have a donor on death row who will be able to give his liver in May and that they have a doctor willing to do the operatuon.

FTI, what Stone does not say is that it was after he announced his JFK movie and stated he would tell the pople who killed their fresident, why and how that I wrote him in detail telling him how he could not do that with Gurrison and he ignored that for two months that I made the record that what he would do would be fiction, not nonfliction. As it was.

His experts were not subject-matter experts. They were theoriticians who did not know the material. And Garrison cribbed and enlarged on what he pribbed.

There was no Mr. X. Carrison made that up. He obviously was not Prouty, as Prouty and Stone say. Carrison also gave him a different function.

Garrison was a great tragedy.

Long story I won't take your time for.

If with no deal with Pepper St one has not lost his King interest, there is the likelihood he'd want nothing to do with me. And framkly I'm uneasy about reality being "improved" upon, the reality being what it is.

But if he isf interested, one thing ho will not have to worry about is that I'd sue, today's news being that he is being sued. There is little chance I'd stilly be here.

If by any chance he is interested and sends someone it should be taped.

Dest,

You may romember from Post Mortem that I was the first to tackle the FBI's Lab. I

did that in the King case, too. Without refutation. I have reasons not to believe Pepper's business with Jowers and the army. I have the FAI's records on Ray leaving Los Angelos on the trip that ended with King's assassination only after a man who was an FBI symbol informer on the east coast first phoned Ray and then went out to see him. Provocative? So much of the truth isk
